

1M Tris-HCl (pH 7.4)

For 1 litre

- 121.1 g Tris
 - 64-70 ml concentrated HCl to pH
 - to 1 l with dH₂O

Tris - Fisher BioReagents: BP152

NOTES:

Add bulk of HCl to Tris solution (which will get warm), and leave O/N to get back to RT before adjusting the final pH to 7.4
